

Playing Defense as a Long Game: Engineering the Future of Cybersecurity

Allison Miller

SVP Engineering, Cyber Security Technology

October 9, 2019

The Future of Cybersecurity

A young boy with dark hair and a green shirt is focused on playing with wooden blocks. He is holding a block in his hands, and several other blocks are scattered around him. The background is a soft, out-of-focus indoor setting with light blue walls and a window showing greenery outside. The word "Perspective" is overlaid in white text on the left side of the image.

Perspective

A young boy, shirtless and wearing grey shorts, is laughing and spraying water from a colorful water gun at a young girl. The girl, wearing a white tank top with purple trim, is also laughing and looking towards the boy. They are in a grassy yard with green bushes in the background. The text "All systems will be gamed" is overlaid on the image.

All systems will be gamed
